

Teacher Qualification Data

- Identifies teacher qualifications at district and school levels
- Reports percentage of core academic classes taught by teachers not considered highly qualified to teach such classes

Review the table below listing our schools. The state has identified some schools with the status of Reward, Focus or Priority. A Reward school is one that is outperforming other schools in achievement, growth, or is performing better than other schools with a similar student population. A Focus school is one that has a large achievement gap in 30% of its student achievement scores. A Priority school is one whose achievement and growth is in the lowest 5% of all schools in the state. Some schools are not identified with any of these labels. In these cases no status label is given.

I would like to thank all of our students, parents, guardians, volunteers, faculty and staff members on another good year at NICE Community Schools. Our school family works hard to provide our students with a well-rounded education. We know there is always work to be done to improve, but I for one am proud of our students and our school. When we work together, anything is possible.

Sincerely,

Bryan DeAugustine
