## Notice of Services 4/9/2020

Although schools have closed, the clinic remains open on a limited basis. If your child would like to schedule an appointment please contact the clinic directly at 906-485-1023 ext 3. The clinic is taking safeguards and following CDC recommendations on screening precautions for students/clients and staff. At this time, the clinic director prefers that all appointments are done utilizing one of our telehealth options. If you have questions as to whether telehealth is the right option for you/your child, we will screen individuals via phone prior to their appointment to help make a determination. We have been conducting virtual visits and it has been going very well. We will continue to offer this service throughout the summer.

If your child currently receives mental health services and an appointment was previously scheduled, we will be contacting you by phone to either re-schedule your appointment or conduct that appointment virtually. You will receive information in the mail, as well as a telephone call to re-schedule past appointments. If we have not contacted you, please do not hesitate to call.

Your child’s emotional and mental health is important to us, and we will do what we can to meet those needs during this stressful time.

Sincerely,

Jamie Dieterle, LMSW, CAADC  
Clinical Social Worker  
NICE Child & Adolescent Health Center
